

I'm honoured to be part of Martin's commemorative event. Martin holds a special place in my heart, together with the people who shared our experience in the golden years of SBS. In the subtitling unit there were many talented individuals, and it has been a privilege to get to know and become friends with them. Even among them, Martin was exceptional; a special person and a good friend. He was liked and respected by his colleagues for his talent, kindness and humour and his passing affected us all very deeply. I have and cherish his book *The Typewriter*, *Considered as a Bee-Trap* and I will never forget how pleased I was that he liked my little sketches, and one in particular, which I did of him.
